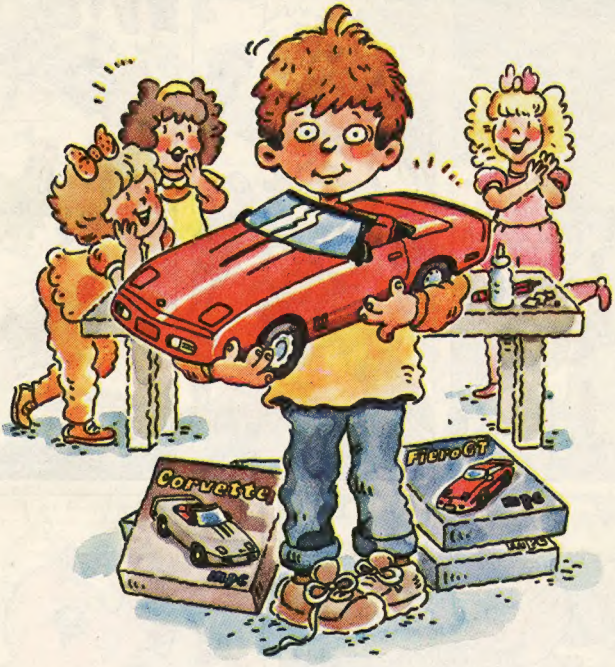
BODY BUILDER



Maybe it's a truck body. Maybe a racing car body. But whatever model you're building, you want it to look the best. That means putting in a ton of care and concentration. And paying particular attention to the details.

And when it comes to details, no one out-muscles MPC. Details are MPC's strength. You see, at MPC special effort is given to insure that every car or truck is 100% authentic.

Whether it's an old model or a new one. A Classic Muscle Car or any of the newest '87 American High Performance Cars, MPC's got a model kit you can wrestle with.

So if it's a great body you want to show off, get an MPC Model Kit.

Just like the real thing. Only smaller.

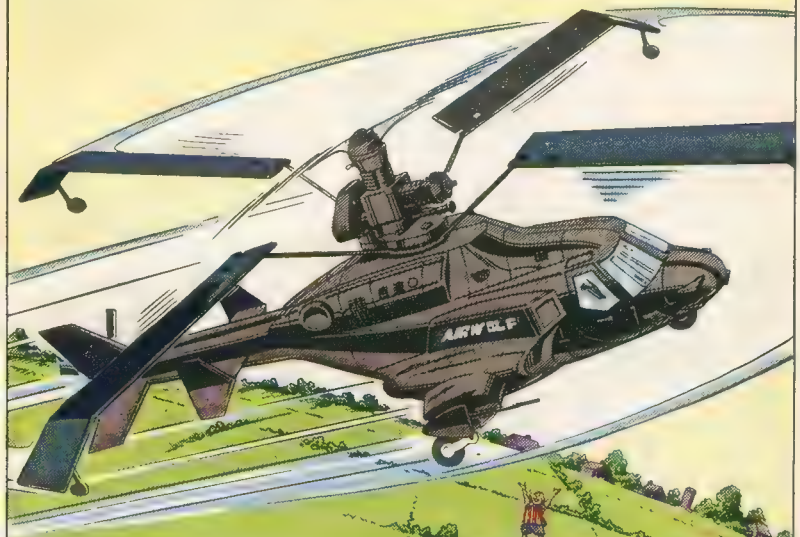
AIRWOLF™

REAL ENGINE POWERED MODEL HELICOPTER

YOU CAN FLY!



Flying your own Airwolf helicopter is a blast! But it's not for the timid. That's because the Airwolf's powered by a real piston driven Cox .049 engine. Fire that baby up, watch the Airwolf's huge blades gain rotation speed and let it fly. Your Airwolf climbs a hundred feet into the sky! Then, the engine runs out of fuel. Your Airwolf begins to fall! But no worry — everything's cool. The sudden loss of altitude causes the auto-rotation blades to change pitch. Your Airwolf slows and settles in for a perfect soft landing. You're proud! You proved your ability! You can fly our own Cox .049 engine powered Airwolf helicopter! Visit your favorite hobby shop or other retailer to get yourself an Airwolf and have a blast!

See all the Cox Products. Send for your free Cox catalog. Include $1.00 and receive a Cox iron-on patch.
